

TRADE PRESS RELEASE

Legendex, a leader in innovative vehicle accessories, is thrilled to announce the highly anticipated release of its latest product, the Legendex Tub Rack. After years of meticulous design and engineering, this game-changing accessory is set to redefine the way trade professionals approach cargo management.

Ultra-lightweight and Incredibly Strong

One of the standout features of the Legendex Tub Rack is its construction. Crafted from top-tier alloy, this rack is engineered to be ultra-lightweight without compromising strength. Trade professionals can trust its durability in demanding work environments, making it an essential addition to their arsenal.

Tailor-Made Modular Design

Versatility is at the core of the Legendex Tub Rack. Its modular design allows users to choose from a range of sizes and configurations, including tall, short, long, and wide options. This flexibility ensures that the Tub Rack can adapt to meet the unique needs of each trade professional.

Low Leg and High Leg Designs for Customization

Legendex understands that trade professionals have diverse needs. That's why the Legendex Tub Rack is available in two distinct designs:

- **Low Leg Design (210mm Total Height):** Ideal for customers who want to fit a roof-top tent without it extending above the roofline of their ute. This design offers the perfect solution for those seeking a streamlined, compact option.
- **High Leg Design (420mm Total Height):** Perfect for customers who want to accommodate a clamshell-style tent or need more room under the tub rack for additional gear storage in the tub. This design provides enhanced versatility for those requiring extra space.

Compatibility with Soft Tonneaus and Roller Shutters

Legendex goes above and beyond by offering Tub Rack systems compatible with both soft tonneaus and roller shutters. Whether you prefer the classic soft tonneau cover or the modern convenience of roller shutters, you can enjoy the benefits of the Legendex Tub Rack in your chosen configuration.

TRADE PRESS RELEASE

Unmatched M.O.L.L.E Pattern Versatility

The integrated M.O.L.L.E pattern is a true game-changer. It empowers trade professionals to securely strap down their equipment, including Tred boards, high-lift jacks, shovels, and additional lights. The alloy construction even allows for customizations, with the option to drill holes for unique mounting solutions.

Experience the Legendex Difference

"Legendex Tub Racks are designed with trade professionals in mind," says Kyle, Workshop Manager at Legendex. "We've worked tirelessly to create a product that not only excels in terms of strength and durability but also provides the adaptability needed to tackle a wide range of trade applications. With the Legendex Tub Rack, your Ute becomes a versatile workhorse."
