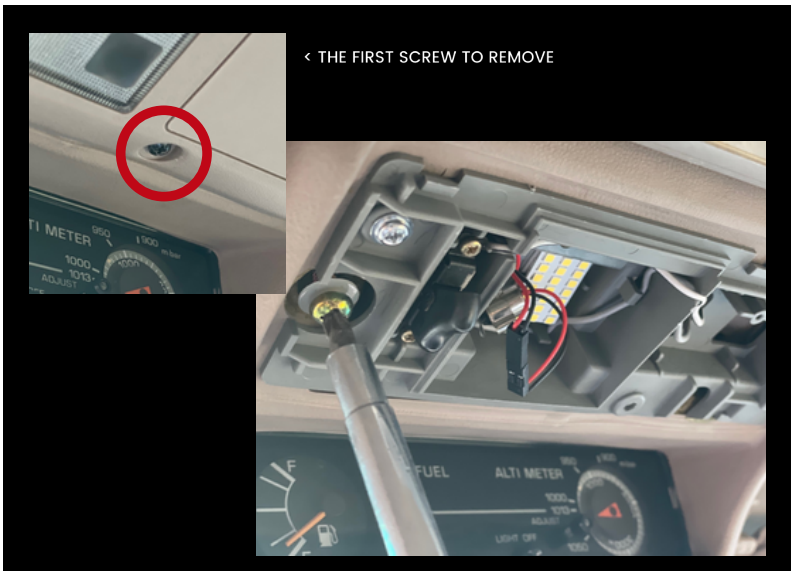
INSTALLING YOUR NEW ROGUE M.O.L.L.E

STEP 1

Start with double-checking all the correct components and gathering the tools required.

STEP 2

First, remove the screw from a courtesy light panel located at the top of the front windshield then remove the panel, once removed continue to remove the two large screws from the rear of the Overhead Dashboard as shown in the images



STEP 3

Allow the overhead dashboard to hang loose then Slide the roof console front bracket into place between the hood lining and the overhead dash. Aligning the slots with the rear screw holes

STEP 4

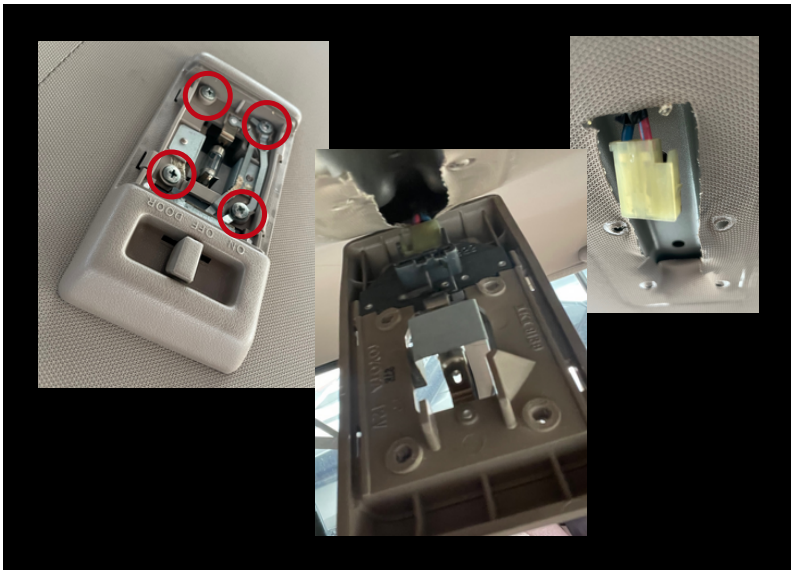
Refit the rear screws and check the bracket is held securely then Refit the courtesy light cover

STEP 5

Remove the cover from the centre interior light using a flat-head screwdriver as shown in the image

STEP 6

Remove the 4 factory screws holding the panel up then remove the panel by unplugging the factory wiring harness



STEP 7

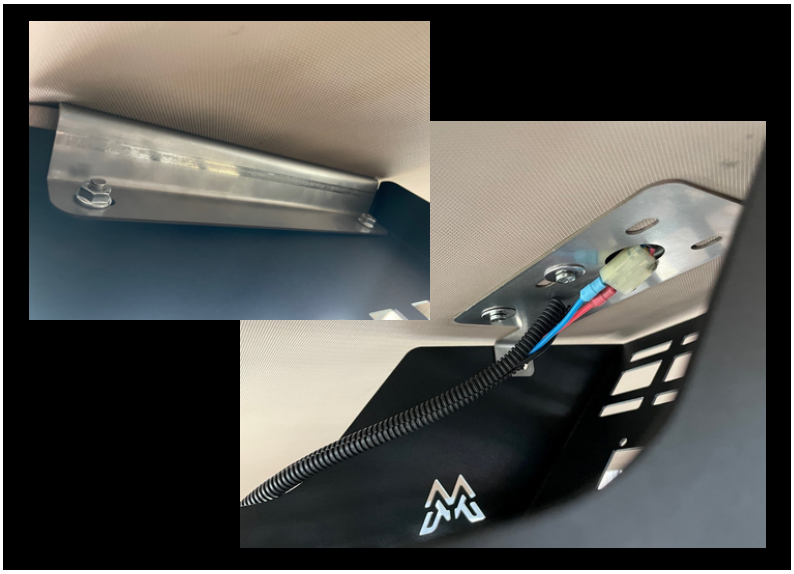
Fit the Rogue M.o.l.l.e rear bracket using the factory screws and 6mm washers provided.

STEP 8

Next, Fit the wiring harness –
The wiring harness is colour coded. Match the blue and red wires, and fit the earth to the closest mounting screw on the interior bracket.

STEP 9

Bolt the body of the roof console to the front and rear brackets installed earlier, we recommend a loose fit at this stage of the installation process

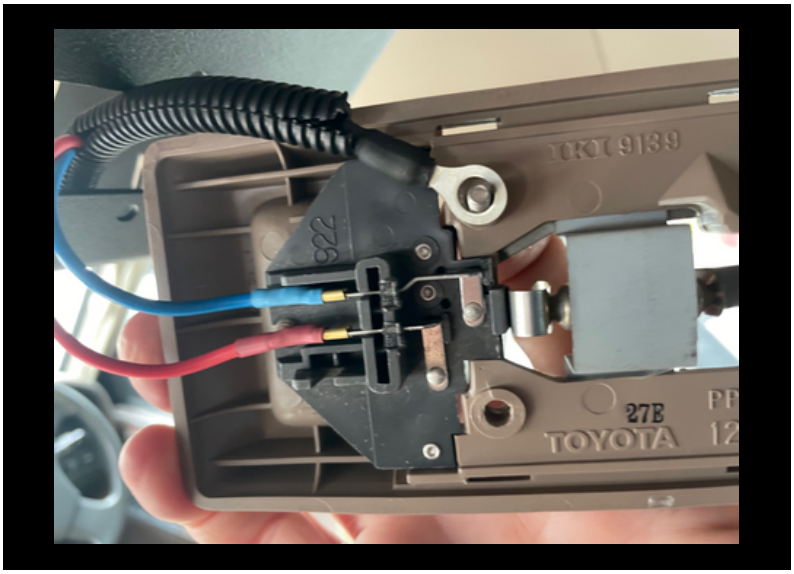


STEP 10

Pull the wiring harness through the interior light cut-out and fit it to the interior light. Identify the earth bolt on the interior light to fit the earth cable.

STEP 11

Fit the interior light to the body using the bolts and nuts provided



STEP 12

Align the body of the roof console to your desired fitment against the roof lining and tighten the mounting bolts.

STEP 13

Refit the battery cable and test the interior light functionality

NOTES

PRODUCT CODE: MR-80-R-1
